PROFILE

Full-stack developer focused on building customer-facing web experiences alongside the APIs and operational tools behind them. Experienced with Next.js, React, TypeScript, Django, commerce workflows, multi-tenant storefront tooling, and product operations.

EXPERIENCE

TWC IT Solutions — Full Stack Web Developer | Jan 2024 - Jun 2026

- Built the Next.js V4 frontend for a commerce platform with 60,000+ registered users; platform scale is context, not an individual growth claim.
- Established shared React context, typed API utilities, and a Next.js API layer for identity, dashboard, storefront, checkout, and logistics workflows.
- Maintained and extended Django REST Framework and Django Ninja services used by frontend commerce and supplier experiences.
- Extended a 38-block Puck storefront builder and a two-layer theme system combining Material UI with supplier-configurable CSS variables.

GameBox — Owner, Computer Rental & IT Services | 2016 - Present

- Co-founded the computer rental and services business, became sole owner in 2020, and manage customer support, budgeting, system maintenance, and day-to-day service delivery.

Vendics Enterprise — Frontend Developer & Co-Founder | 2014 - 2019

- Built business websites and customer landing pages for local clients as part of a small IT services partnership.

Datamarked ApS — Product Manager | 2012 - 2018

- Managed product data structure and lifecycle workflows; improved categorization, sorting, and duplicate-detection processes.
